**PREFILED TESTIMONY OF
CHARLES KNIGHT, Ph.D.
ON BEHALF OF
GEORGIA MOUNTAIN COMMUNITY WIND, LLC**

1 **1. Introduction**

2 Q1. Please state your name and business address.

3 A1. My name is Charles Knight. My business address is: University of Vermont
4 Consulting Archaeology Program, 111 Delehanty Hall, 180 Colchester Avenue,
5 Burlington, Vermont 05405.

6

7 Q2. By whom are you employed and in what position?

8 A2. I am an archaeologist employed by the University of Vermont Consulting
9 Archaeology Program (“UVM CAP”). My resumé is attached as Exhibit
10 Petitioner CK-1.

2. Summary of Assessment and Conclusion

Q3. What is the purpose of your testimony?

A3. My testimony describes the results of the Archaeological Resource Assessment conducted by UVM CAP to evaluate the potential impacts of the proposed Georgia Mountain Community Wind Project (“Project”) upon archaeological resources. A copy of our report is included as Exhibit Petitioner CK-2.

Q4. Please summarize your findings and conclusions regarding the Project’s potential impacts upon archeological resources.

A4. UVM CAP performed an Archaeological Resource Assessment (“ARA”) of the Project and did not identify any areas that are archaeologically sensitive for precontact-era Native American archaeological sites. In addition, no historic period archaeological sites were identified during the site inspection or through historic background research. The proposed parcel contains large areas of steep slope. The proposed access road, wind turbines, and transmission line alignment all occur in areas that have either been disturbed by historic period activities, or are located along non-sensitive slope. As a result, the proposed Project will have no effect on significant cultural resources.

Q5. Does this conclude your testimony at this time?

A5. Yes, it does.
